The fifth centenary celebrations of the birth of St Teresa of Avila

2014 - 2015

The Carmelite Forum of Britain and Ireland

St Teresa was born on 28th March 1515 into the religious and political ferment of medieval Spain.

She entered the Carmelite Monastery of the Incarnation in Avila in 1535. The Incarnation was a large monastery with over one hundred sisters.

Teresa longed for a smaller community more deeply rooted in the principles of the early Carmelite hermits and with a greater emphasis on solitary prayer.

In 1554 Teresa experienced a radical encounter with Christ which was the flowering of a rich spiritual life. From then on, Teresa was convinced that prayer was best understood as a living friendship with Christ.

In 1562 Teresa founded St Joseph's, the first monastery of her reform. Over the next fifteen years she established a further sixteen communities of nuns dedicated to prayer. In 1568 a group of friars also joined the reform.

Teresa died on 4th October 1582 and was canonised in 1622. She was declared a Doctor of the Universal Church in 1970, meaning that her teaching has significance for all Christians.

Prayer is nothing else than an intimate sharing between friends.

St Teresa of Avila

Teresa taught her approach to prayer in her books and letters. She used vivid images drawn from daily life, likening prayer to the different ways of watering a garden, and imagining the soul journeying towards God as through a castle.

Through the centuries, Teresa's life and writings have influenced saints and other writers, not least her namesake St Thérèse of Lisieux, the 'Little Flower'. Teresa continues to inspire people from all walks of life

Throughout 2014-2015
there will be events
to celebrate the fifth
centenary of Teresa's birth,
and to explore
the ongoing significance of
her life and teachings.
